

CONTRACTORS & INSPECTORS

Provided by the Michigan Concrete Association

Exterior Flatwork - Best Practices

To schedule a contractor training event, please contact:

The Michigan Concrete Association

2937 Atrium Dr. Suite 200, Okemos MI

Email: hmsmith@miconcrete.net Phone: (517) 347-7720

On-site Presentations

Training Sessions are customized to fit your individual company's concrete industry needs and interests. Training takes place at a location of your choice. Currently this training is free for MCA members or those who schedule through a MCA ready mix concrete producer member. Training is divided in to modules so that a program can be created to fit an individual company's needs and time frames.

Q: Who should attend?

A: Foremen, Superintendents, Laborers & Inspectors

About the MCA

Improving the quality of concrete and increasing the level of professionalism throughout the industry is an important part of the MCA's mission. The MCA offers numerous other educational and training opportunities to ensure that Michigan's concrete industry remains strong, educated and respected. These programs are incorporated with the Construction Quality Partnership (CQP).

Topics

- Concrete Basics -
- Planning - Setting up a successful pour
- Ordering Concrete
- Site Preparation
- Concrete Placement, Consolidation, Finishing & Curing
- Jointing & Sawing
- Being Prepared for Michigan Weather - Hot & Cold Weather Best Practices
